

Conservation & Land Management Coordinator
An A Rocha UK / A+ internship

with

Location: Adventure *Plus*, Windmill Farm, Main Street, Clanfield, Oxfordshire OX18 2SN

Brief description of role:

Conservation & Land Management Coordinator
An A Rocha UK / A+ internship

Adventure *Plus* has acquired 80 acres of farmland in Oxfordshire to create our first '[AdventureBase](#)'.

Our conservation Intern will help implement a brand new landscape for this Christian Outdoor Education & Adventure Youthwork centre. The land is currently intensely farmed monoculture.

Priorities:

Develop and maintain a site which reflects the love of the Creator God through the beauty of His Creation as we implement our detailed site management plan.

Provide a warm welcome to all, and foster greater understanding of ecology, the natural world. & Creation Care

Work with local volunteers and staff to improve the site, planting native species as appropriate to our climate and pedology, and improving existing flora (woodland management, hedge-laying weekends etc)

Help develop KS 2 & 3 material for field studies as we share these principals with schools and youth groups

Support & Supervision

This Internship is hosted by A+, in association with A Rocha UK (A+ is an A Rocha PiA).

[A+ interns](#) are part of a wider A+ training programme which also includes a Discipleship and SI (Spiritual Input) Programme and the year is managed by our dedicated A+ GAP & Training Coordinator.

A+ hosts other internships (Adventure Education, Marketing & Fund Raising, Hospitality & Catering).

Relevant A+ Section Leaders support specialist elements of each internship. Conservation Interns work closely with the Exec Director (also a graduate in Environmental Studies) and are also supported with professional advice from A Rocha UK
